Edmonton Bulletin Supplement.

EDMONTON, SATURDAY, OCTOBER 17TH, 1891.

LOCAL.

Col. Jarvis at the instance of a number of electors, announces that he will be a candidate at the approaching election of a member for the legislative assembly for the district of Edmonton. He will publish an address to the electors shortly.

TREASY payment was made at Stony Plain agency on Saturday, Oct. 3rd, at Michel's reserve on Wednesday the 7th, at Riviere Qui Barre on Thursday the 8th, and at Lake St. Ann on Saturday the 10th. A large number of traders attended the payments.

THE following is the football team which will play Calgary to-day. Those not in the base ball team which left on Wednesday, went out on Friday's train. C. Young, captain, A. Pattison, Rev. C. Cunningham, R. Hardisty, P. L. McNamara and W. Clark, Edmonton; A. Adamson, F. Adamson, W. Edmiston, H. Edmiston, J. C. C. Bremner, H. Hope, McKee and Freame, Clover Bar.

A. McLAY who went to Bottineau, North Dakota, some weeks ago to bring up his family writes that the crops in Bottineau are the best ever raised there, but frost has done some damage. In the Red river valley a large quantity of wheat is damaged by heavy rains, the stocks are standing in water and help is scarce. Farmers complain that the elevator men grade the wheat low. Although there are good crops in Dakota this year, a large number of farmers will pull out as soon as they get threshed. They have suffered too much to forget their past miseries, and trust to wheat raising in Dakota any more. Prairie fires have been raging for some time and large quantities of grain and buildings have been destroyed. A number of farmers from South Dakota are crossing the line since losing their crops. After travelling over a large portion of the United States and Canada during the past year I have not seen any place which offers the same advantages as the Edmonton district. It is not like Dakota. There are no experiments to make, to find out what the country is good for. It is a grain, stock, mining and lumbering country, and for mixed farming can't be beaten. There are good prices for produce, light taxation, plenty of timber and coal for fuel, good water, healthy climate, good churches and schools and plenty of vacant land to be had yet in the Edmonton district. I will start for Edmonton in about ten days. There will be some families come with me if they can get threshed, but machines are scarce, and some won't come this fall on account of not getting threshed until too late."

SCHOOL GRANTS.

THE following letter from the Northwest government was received by C. F. Strang, secretary of Edmonton public school district, dated Regina, Oct. 9th. "I am directed by his honor the lieutenant-governor to acknowledge the receipt of your return as treasurer of Edmonton school district, No. 7, for the quarter ending 30th ult., and to inform you that in view of the legislation which has recently taken place at Ottawa with regard to Northwest affairs, and which will necessitate changes in our school ordinance, His honor has decided that no school grants shall be paid pending the meeting of the new legislative assembly."

TO THE ELECTORS OF EDMONTON.

GENTLEMEN:

Having been assured of the support of a large number of the electors of this district, I beg to offer myself as a candidate for election as your representative in the Northwest assembly.

My course in the past three years during which I had the honor to be one of the representatives of the united district of Edmonton was shaped with a view to securing progressive and beneficial legislation on local matters in the Territories, with particular regard to the interests of this district; to securing a proper control by the representatives of the people of the moneys pertaining to the local government of the Territories, no matter whence derived; to securing adequate and definite financial aid from the federal parliament for the proper carrying on of the local government, for school grants and road improvements; to bring about a settlement of the liquor question which should be in line with the will of the majority; and generally to do all possible, according to my opportunities, to advance the interests of the Territories in general and of the Edmonton district in particular. Having acted with the majority of the late assembly I may, with all modesty, claim some credit for the progress that has been made along these lines.

The action of the assembly in protesting against the twice threatened reduction in the aid to schools has prevented that reduction as yet. Its action at the session of 1888 in assuming the distribution of the funds provided for local public improvements secured a larger and more useful distribution of these funds than ever before. Its efforts towards securing control of the funds voted by parliament for the local government of the Territories—handled exclusively by the lieutenant governor until that time—have been partially met by a concession in the new Northwest act. Its action in 1888 in declaring by resolution that the liquor question should be dealt with according to the wish of the majority of the people of the Territories has been met by the late amendments to the Northwest act, placing the question under Northwest control. The recommendation made by the assembly regarding additional scrip for half breeds resulted in the late deputy minister of interior coming to the Territories to investigate the matter, and had the case been properly represented in Ottawa no doubt the recommendation, of the assembly would have been acted on.

I believe that the first duty of the new assembly will be to establish firmly the principle—violated so outrageously during the past year—that the people's money must be controlled by the people's representatives. Until that principle is firmly established legislation by the assembly on any subject may be rendered useless. During the past year \$11,000 of strictly Territorial funds, which should have gone for public works in the proportion of \$200 to each electoral district, was withheld ostensibly to be used for immigration purposes, but so far as head from has not been used for that purpose. This is a matter that requires prompt attention.

The large increase of schools in the Territories and the necessity of their receiving large government aid in order that they may be useful, makes it of the highest importance that a definite understanding should be arrived at between the Northwest assembly, which provides the school law, and the parliament of Canada which furnishes the funds whereby

that law is given effect as to the amount of funds available for school purposes from year to year. Otherwise schools may be organized and expenses incurred by rate-payers in cases in which the schools may afterwards have to be closed, if the parliamentary appropriation has not been duly increased.

The question of prohibition or license will no doubt occupy the attention of the next assembly. I believe that the first step to be taken towards the settlement of that question is to find out what system will have the support of the majority, so necessary to make it a success. This question is universally conceded to be non-political, and I believe can best be dealt with in the Northwest as it is elsewhere, by submitting it to a direct vote of the people—aside from questions of men or of politics—the assembly afterwards giving effect by legislation to the wish expressed.

I shall use every endeavor to meet as many of the electors of the district as possible before election day, but as I cannot expect to meet every man, I take this opportunity of explaining myself on two questions which have been prominently before the people of the Northwest for the past two years:

In 1888 the assembly passed what is often called the "Language resolution." This resolution was not aimed—as many people suppose—against the official use of the French language, but solely against its official abuse in causing a great deal of expense to be incurred in the indiscriminate printing of unimportant and often useless documents in that language. The view taken by the assembly has since been endorsed by the Canadian parliament, with the approval of many, if not a majority of its French Canadian members, and has been embodied in the recent amendments to the Northwest act. By this amendment the official use of the French language is protected in all important particulars, but the cases most liable to abuse are left to the control of the assembly.

In the same session of 1889, what is mis-called the "anti-separate school" resolution of the assembly was passed. Contrary to the general impression the resolution neither in its wording nor in the remarks of its mover or seconder, expressed any opinion for or against separate schools. It simply asked that the assembly be given full control of school matters. The motion was carried by a practically unanimous vote, on the grounds that it was strictly in line with the claims for more complete control in local matters generally then being put forward by the assembly. This matter the Canadian parliament has seen fit to keep in its own control; it therefore does not come within the range of local legislation. It will be the duty of the assembly to carry out the provisions of the Northwest act regarding schools as they stand and to improve the system from time to time as may seem necessary in the cause of education.

During the past three years I have tried faithfully to serve the district and to do justice to all sections and all classes. While I may not have pleased or satisfied every one, I ask all to believe that I acted without prejudice, from honest motives, desiring only the welfare and prosperity of the district and of the Territories.

Should I be again honored with your confidence, I shall still endeavor to serve your interests to the best of my ability.

Respectfully Yours,

FRANK OLIVER.

In the competition for the Hudson's Bay
Company's cup, taken by the exhibitor win-
ning the largest number of points in prize
for three years in succession, J. C. G. Bren-
ner was first with 99 points and W. H.
Stephens second with 72 points. This is Mr.
Brenner's second year of winning the cup.

At stated last week, the exhibit of live
stock, particularly horses, were more nume-
rous than in former years. Polled Angus cat-
tle were a new and very desirable feature at
Edmonton exhibitions. Honey in the comb,
and strained honey, exhibited by Thos. Hen-
derson, was very attractive. Tobacco on the
stalk and in dried leaf, was exhibited by
Count De Cazes, besides sunflowers. There
were 30 exhibits of potatoes, of many varie-
ties, but never so single potatoes were as
large as some that were shown last year.

Following are a few of the measurements of
vegetables exhibited: celeron, 25 inches
around, pumpkin, 4 feet 3 1/2 inches, sunflower,
3 feet 8 inches, white onion, 15 1/2 inches, red
onion, 13 inches, celery, 1 foot 2 1/2 inches
around at the root, red cabbage, 3 feet 5 1/2
inches, white cabbage, 4 feet 1 inch, horn
cucurbit, 1 foot 6 inches, white carrot, 1 foot 1
inch, flat beets, 2 feet 4 inches, mangold, 1
foot 8 inches, potatoes, 1 foot by 1 foot 7
inches, swede turnip, 2 feet 8 inches, white
turnip, 2 feet, wild pot and vetch, shown by
B. Kelly of the Sturgeon, 6 feet 11 inches
long.

...
B. C. Talbot and Thomas Gregg, respec-
tively of Brown and Clark counties, South
Dakota, arrived on Monday's train to say out
the land for future red rice. While there has
been sufficient moisture throughout the Da-
kotas at large this season, Brown and Clark
counties still suffer, and consequently farm-
ers are compelled to seek a new location. The
man represented by Messrs. Talbot and
Gregg are fairly well to do and able to pay
their way.

ASSEMBLY ELECTIONS

The writs for the Northwest assembly elections arrived on Monday's train. Nominations on Oct. 31st, election on November 7th. W. S. Robertson is returning officer for the Edmonton district and A. Ringette for St. Albert. The boundary dividing the two districts is practically that published in the BULLETIN some weeks ago. The 14th base line from the western boundary of Alberta to the line dividing ranges 24 and 25, (that is a point on Malcolm Groat's property, west end of Edmonton,) thence north six miles, thence east between townships 53 and 54 to the Saskatchewan, thence following the Saskatchewan to the line between ranges 20 and 21, thence north to the line between townships 00 and 00, thence east to the eastern boundary of the province. The southern boundary of the district is the 12th correction line which passes just north of Peace Hills. Stony Plain settlement, Edmonton and Belmont school districts, Victoria and Saddle Lake settlements north of the Saskatchewan, are in Edmonton district, with all south of the river to the 12th correction. St. Albert includes Lake St. Ann, St. Albert and Long Lake settlements, St. Leon, Sturgeon, Poplar Lake and Saskatchewan (north side) school districts, Lac la Biche and Whitefish Lake settlements. Nominations may be made at any time before 2 o'clock on nomination day. Polls open at nine o'clock on polling day and remain open until five o'clock in the afternoon.

ELECTRIC LIGHT.

A meeting of the directors of the electric light company was held on Tuesday afternoon, at which a contract was signed with the Royal electric company of Montreal, under which the company is to have an electric light plant in running order in Edmonton on Nov. 30th. We expect the company will be here to commence work in a week or ten days. Tenders are being asked for the supply of the necessary tamarac poles. Land has been purchased from the Methodist mission on which to erect the necessary buildings. Twenty thousand bricks have been purchased for foundations for the machinery, which will comprise 50 horse power engine, 55 horse power boiler and 500 light dynamo. The building will be started at once.
